

Friday 1st July L.O. To write an adventure story

One day Oliver Jones was sent to find a legendary skull, and he went with Billy his son. It was a long trip because they had to travel to Mexico. They first went into the volcano in the water and there was angel fish guards but luckily Billy had his dagger. Soon they came upon the immortal shark. "Clash" the immortal shark was outmarched and he got hurt ^{so} much ^{that} he died. The two explorers came upon the golden chak. They went south to crock land, and where Oliver and his son could get supplies to battle the undead jellyfish army. It was hard battling the jellyfish group so Oliver Jones called the crocks to help and they did. Billy quickly got the staircase and they swam out of the cave. Next they came to the Bahamas the place ^{where} were the crystal skull was and sure enough they got that ^{at} night. ^{but} it was guarded by statues of lionfish and the spikes on the back had a sting. Quickly and carefully Oliver got the crystal skull and swam out. They gave the skull to the museum ~~on~~ and they were called for another mission. *They found the skull in the depths of the sea to find the legendary shark tooth.

where
It's not quite clear what they did. Check and finish.
