LO: To write the story about the video = "The Piano"

The old man, who was a granddad, was in his long hall at his house. He played the piano because he was really sad and lonely. The old man was playing a sad, heartbreaking tune because he felt awful.

The old man was sad because his wife had died in the old man's old house and he missed his wife.

Then he kept on playing the piano, when he suddenly had a flashback and he was remembering world war two. The old man had run as fast as he could to the wall. In the war, in front of the old man was his best friend, who died. The old man had taken him to a hospital. Unfortunately, he ^{had} passed away.

The old man remembered playing with his best friend on his old wooden horse ^{when they were young} and he had given it to the little boy called Barry. Barry, his grandson, played on the wooden horse around the hall.

As fast as a lion, the little boy, who suddenly noticed his granddad. His granddad felt sad because his wife and his best friend had died. Barry cheered him up by playing a happy note on the piano and then they both smiled.
