

# EXPLOPING VOLCANO

A banging, crashing,  
fizzing, bubbling,  
cracking volcano  
is erupting. A  
roasting hot burning  
volcano is filling  
up with lava. It's  
a human killer, forest  
breaker, deadly monster.  
It shoots red lava  
and brings fire  
out. It explodes  
with lava.  
it's boiling hot  
not shivering  
cold. It kills  
people it hurts  
people too!!!!
